Real Estate and Urban Planning

Real estate law has always been one of the cornerstones of our firm's services. We advise real estate funds and other institutional investors, banks, real estate developers, shopping centre operators, hotel chains and private buyers in their real estate transactions in Spain, as well as on any related financing.

We not only accompany our clients through all stages of their transactions, we also assist them with the lease, management and realisation of properties belonging to all asset classes.

Expertise, experience and steadfast motivation drive us to look at things from all sides. This is why our clients trust us with their business in Spain. In brief: **legal advice with passion.**
