YOUR LOCAL PARTNER ON THE COSTA DEL SOL

At Klic Arquitectos, we work closely with our clients to bring their visions to life, from concept design to construction.

We work with meticulous attention to detail to create timeless structures in harmony with the impressive landscapes and cultural heritage our surroundings offer. Our spaces enrich communities and inspire future generations.

✓ **We know the local regulations**

We're familiar with the sector's procedures and how it works.

✓ **We work in the area**

Being close to the project means we can provide agile solutions and guarantee everything runs according to plan.

✓ **We have a pool of trusted contacts**

We work alongside experts in structures, engineering, health and safety inspections, waste management, control plans, surveying, management, security and anything you need for your project.

✓ **We are resourceful and creative**

Our sound management skills and vast experience help us prevent unforeseen circumstances and offer efficient and innovative solutions.

Juan Goñi
Architect

Juan Goñi is a dedicated architect who works from a global perspective.

His personal involvement, proximity to and knowledge of the Costa del Sol make him a trusted partner who can anticipate issues and offer efficient, innovative solutions in line with customers' needs and the well-being of the spaces' inhabitants. His unwavering commitment to delivering quality is pivotal to your project's success.

KLICARQUITECTOS.COM

We were offered a project with an upcoming brand on the Costa del Sol but it was urgent and came in just when we were starting other projects in Peru.

A friend put us in contact with Klic Arquitectos. We found Juan Goñi to be extremely empathetic and qualified. Klic Arquitectos took on the project as a local partner and did an excellent job, leading us to collaborate with them on this and many other of the chain's projects.

José Fernando Muñoz Rubio, Architect
